THE GREATEST INVENTION OF THE AGE West's Patent Galvanic Cement For Roofing.

THE subscriber is now prepared to cover roofs of build-ings, with a new and better article than ever before Ings, with a new and better arrive than ever before mown. The public are aware that our Government has added eight of the second state of the second state of Architects and Builders, for years, to discover an article for roofing purposes, that would stand the sudden thanges of the weather, and be impervious to fire and er, and remain a personnent fixture. As yet, nothing been attained without costing more than the people b. The contraction, expansion and rusting of metal ofs, are so great in changeable climates, that they be-me useless, unless being repaired at great expense tearly. Shingles are not are proof, and cannot be used on lat roofs, and the various Compositions and Coments that have been brought into use for roofing, do not stand the ction of the weather, but they run when it is warn, and rack when frosty, and after one or two years become Thorn's Compound Etxract of Coumb y, and worthless; whereas, the inventor of the Galic Cement, has labored twenty years to combine arti-to obviate those difficulties, and can testify from his astly kind while the atmost eve is bestowed upon comg experience, and numerous testimonists from reliable rsons, who have had his combination applied to their ildings, that his Coment is the cheapest and best at der ounding them by one of the members of the com any ever before known. The combination of this Cement is such iat it is calculated for entire new roofs, flat or steep, covring over old shingles without removing them; lining avertionghs, seaming around battlements, chimneys and by-lights. Covering carstons, steamer-lecks, &c. This lement, by its non-conduction and gaivanism, prevents netal roofs from rusting and unsoldering, and resists the arremes of heat and cold, better than any thing ever invented for entire roofs or for covering. ented, for entire roofs or for covering metal and the out de of wood buildings, making them fire proof. Its aprance is like slate; beautiful for the rich palace or the mble cottage.
The undersigned having secured the right to the State of messee, will sell rights of Territory, by Countles or owns, or reasonable terms.

The subscriber is also prepared to cover roofs of build-ngs, in any part of the State, at hert northe.

This Roof is now being put on in this city, for the bene-t of all concerned, and warranted to excel all other modes f Roofing. The subscriber has and his mode of Roofing tested as to its qualities, during the last year and a half in the city of Memphis, which has proved satis actory, to which a number of the nost prominent citizens can For further information enquire at he office, where samples may be seen. See testimponals of others, used it, with hosts of others, W. S. BENNETT, Proprietor. Attached is a note from John L. Morgan, Esq., Architect, by which may be seen the opinion of Mr. Samuel Sloan, the celebrated Architect, and writer a on Architec-ture, whose experience with this mode of roofing, without a cloubt, is natisfactory to all. Mamphia, March 12, 1837.

Ma. W. S. Bennarr — When in Philadelphia, Pa., a few days ago, I called upon Mr. Samuel Sloan, the ce ebrated architect, and aut not of the Sloan Work on Architecture

I asked his opinion as to the entability &c., if west's Paren Roof, such as you are using in the city of Memphis and he told me th t he had no hesitation in saying to me that it is a good and durable roof, and is all that its advocates chain it to be; farther saying that he is taking it on a fine building for himself. Respectfully.

MEMPHIS, June 26, 1357. To Whom IT MAY CONCERN. - This is to certify that the Meophis and Charleston Rallroad Company have pur-chased of W. S. Sennett, the right to prepare and use upon their Depots Buildings, Cars. &c., &c., West's Galvanic patent fire and water proof Rooding, and that we believe it to be an economical and durable covering, having al-ready had it in use for eight months. F. O. ARMS, Gen's Supt.

W. S. BENNETT, Frq.-Dear Sir.-The facts within our knowledge of the durability, &c., of West's Galvanic Ce-ment; are these: The building you covered for us last spring, I am happy to state I as ans ered our expectations. We can therefore recommend it to the public for all roofing purposes; as a light, cheap, fire and water proof roof. It does not get soft and run from the effects of the heat of the sun; nor does it harden and crack from the effects of the cold. Any persons wishing to know more of this article, can call at our manufactory.
